REC Primary School & Boarding Establish 2017

Accelerated Christian Education is an American educational products company founded in 1970 by Dr. Donald R. Howard which produces the Accelerated Christian Education (ACE) school curriculum. As of September 2013 ACE serves over 6,000 schools in 145 countries.

The ACE philosophy is built on the basic principles found in the Word of God. Our students are taught to tackle life from God's point of view, to take responsibility for learning and making it a lifestyle, and to walk in Godly wisdom and character. We're proud to see our students developing into well rounded young adults. We have many success stories of students excelling at university and in the work place due to the consistent training in Biblical excellence and the fact that REC cherishes individual potential. This is a truly unique approach to teaching and developing.

"On the surface most schools look alike but REC Primary offers something totally different."

At REC we pride ourselves on shaping our students into agents of change. To do this we have to be different.

At REC we:

- **offer a one-stop educational platform** - grade R to grade 6
- **create a friendly and approachable environment** - we are a family where the individual is important
- **have well respected and loved teachers and support staff**
- **aim to equip students** with life skills which will enable them to make a positive contribution to society
- **have a strong Christian foundation** where good manners matter
- **shape learners through a Character Guidance Route** to develop them into responsible young adults with excellent leadership qualities who lead by example/serving
- **believe in going back to the basics** - the Word of God; the individual; solid reading and good spelling skills
- **Strive to achieve high academic standards** - each unit of work (Mathematics, English, Physical Science etc.) has to be completed (passed) by the student with at least knowing and understanding 85% of the content.

We Offer a balanced academic programme which is tailor made for the individual let individuals excel at their own rate without having to wait for the class, the teacher or interfering factors. The content is self-explanatory and the teacher facilitates the learning process. Academic standards cannot drop, they are fixed believe that our graduates' achievements at tertiary institutions act as a barometer of how high the academic standards are. They excel in life because they have the confidence to tackle new challenges in a unique way are sensitive to each one's needs and encourage students to assume responsibility by being the best they can be; competing against themselves.
